Help save a life.

Equip your home with a
Philips HeartStart Home Defibrillator

Dear Customer,

Congratulations on taking an important first step to learn more about the award-winning **Philips HeartStart Home Defibrillator** by requesting this free information kit. HeartStart is the first of a new generation of defibrillators specifically designed for use in the home by virtually anyone to help save a life.

Just like you prepare your family for other emergencies by installing smoke detectors and security systems or by purchasing life insurance or long-term care insurance, let us help you prepare your family for a sudden cardiac arrest emergency. It's easy!

Key Features & Benefits:

Easy to learn and use - Uses clear, natural voice instructions that talk you through each step. Training materials included.

Safe – Designed to only deliver a shock if needed.

Reliable – Performs daily self-tests so that it is ready when you need it.

Portable – Weighs just 3.3 lbs. Take it wherever you go.

The Complete Solution:

- ♥ The HeartStart Home Defibrillator
- ♥ A red carry case
- ♥ Adult SMART Pads Cartridge
- ♥ 4-year lithium battery
- ♥ Training materials
- ♥ 5-year warranty

Learn how you can help save a life.
Purchase the Philips HeartStart Home Defibrillator Today!
